Ideal for offices,
schools, libraries
and craft projects

Custom designed stamps,
made in minutes

digistamp

Stamp features include:

- **Quick** – State of the art technology creates your stamp in minutes
- **Mess free** – An integrated ink cartridge means no ink-pad required
- **Custom designs** – With so many flexible features including type styles, frames, clip art, in addition to photos, logos and signatures, the possibilities are endless

Custom designed stamps, made in minutes

Imagine if you could create your own custom designed stamp, with your own signature, message, logo, symbol or even photograph in just a few minutes...

Now you can! Virtually anything you can create on a PC we can put on your own pre-inked stamp – which all makes Digistamps ideal for small offices, businesses, schools, libraries or even for craft projects at home.

What's more, there are no messy ink pads involved, and the stamps come in high quality 600dpi resolution making sure the image is clear and crisp every time you use it.

Choose from 11 different sizes and 4 colours*, and you are one step further in looking professional. What we can ensure is that you get a long lasting stamp (it lasts for 50,000 impressions!) that are non-toxic, environmentally safe, fast drying and clean.
